Be
a Voice.

Do
Something.

Through the Buckner Foster Care and Adoption Network.

The Buckner Foster Care and Adoption Network is a ministry of Buckner International, a diverse global ministry dedicated to the restoration and healing of individuals and the family. In carrying out its services, Buckner adheres to Christian principles delivered with professional competence.

Established in 1879, Buckner has answered the needs of others throughout our history. We carry out our ministries to children through Buckner Children and Family Services, a globally oriented ministry that reflects our response to children in need through a global humanitarian aid program, volunteer missions opportunities, community enrichment and prevention programs, an international network of residential, foster care and transition services, domestic and international adoption, and support programs for children living in orphanages in other countries.

For more information about the Buckner Foster Care and Adoption Network, visit us online at www.beafamilyorg.

BUCKNER

 BUCKNER

Be a Family.

Support Children through Foster Care, Adoption

At Buckner International, we are committed to providing a safe and loving home environment for at-risk and orphan children through the Buckner Foster Care and Adoption Network.

Become a Foster Parent.

Right now, about 600,000 children in the United States live in foster homes. But there are thousands more children who need a caring, Christian foster family. By becoming a Buckner foster parent, you can make a difference for children who have experienced family crisis and trauma and may have a history of abuse, neglect or abandonment. Becoming a foster parent can provide hope for a child when they need it the most.

As a Buckner foster parent, you are part of family that has been caring for children and families since 1879. Buckner is a strong, stable support system for you and your foster child and will be there for you throughout.

Adopt a Child.

Throughout our history, we've had the privilege and experience of placing more than 4,000 children in loving homes. Our commitment to the miracle of adoption means that we provide comprehensive services to you before, during and after placement.

Through the Buckner Foster Care and Adoption Network, there are many ways you can discover the joy of permanently adding a child to your family, including foster-to-adopt, domestic infant adoption, CPS adoption and international adoption.

Foster to Adopt

As a Buckner foster parent, you may want to discover the joy of permanently adding a child to your family. Our foster-to-adopt services offer you the possibility to adopt foster children who reside in your home. Because Buckner is both a licensed foster care provider and a licensed adoption agency, we are uniquely suited to help you adopt your foster child if you choose.

Domestic Infant Adoption

For families in Texas, the domestic infant adoption program places newborns with Christian couples, usually straight from the hospital. As an open adoption program, Buckner works with birth parents during the pregnancy to determine a plan for the baby's future. If they make an adoption plan, they choose the adoptive family. Then, with Buckner's assistance, the birth parents and the adoptive family will begin a relationship and work together to build a plan for openness for the life of their child. Buckner supports birth parents and the adoptive family through education, counseling and support groups.

Waiting Texas Children

Adopting children removed from their homes because of challenging life situations is a wonderful way to be a family. At any given time, there are children available for adoption through the Texas Department of Family and Protective Services. These children have lived in traditional foster homes or residential programs, and for any number of reasons their parents' rights have been terminated. Because Buckner is a licensed foster care provider and adoption agency, we can help facilitate the adoption of older children with appropriate counseling and support.

International Adoption

For families in all 50 states, Buckner offers the opportunity to adopt internationally. There is a large number of children in orphanages who could benefit from a loving, nurturing home. Because of conditions in their countries, these children are unlikely to be adopted within their own culture. And when they turn 16, they are often forced to leave the orphanage with little or no vocational or educational skills – and little or no future.

Buckner is an established and well-respected international adoption program which focuses on placing orphans in permanent, Christian adoptive families. International adoption is one way to make a significant impact in the life of a child and in your family.

Why Choose the Buckner Foster Care and Adoption Network?

- Leader in providing quality, Christian services for children and families since 1879.
- Commitment to building personal relationships and offering emotional support.
- Professional counselors and social workers offer a strong, stable support system.
- Experienced families encourage and mentor you through your journey.
